BURTON BOOM IS TO BE LAUNCHED

At a Big Banquet in Cleveland Engineered by the John Hay Club.

A Real Flesh Builder For Thin People

(SPECIAL TO THE TELEGRAM)
WASHINGTON, D. C., July 8.—The attention of the presidential politicians—"the big boys"—the "Busy Berthas" focused on Cleveland, where tonight the Burton boom is to be launched formally at a large sized feed engineered by the John Hay Club. All eyes are turned, and all ears are alert, in that direction. The tension runs high and the atmosphere is heavy with portentous meaning. How the boom will boom time alone will tell.

Senator Burton—he is no longer a senator, but we will call him that anyway for brevity and convenience—Senator Burton is a modest man as public men go. Nobody has ever questioned that about him, but here is a little true story which proves it. When Senator Burton left New York last March to visit the South American countries to study their governments and trade relations with this country, it had just dawned on him for the first time that he was of presidential caliber, least ways there were some people in the country who firmly believed that he was. Think of that as the rarest example of self-depreciation in a country where every man, woman and child is supposed to self-advertise and hover-blower from an early age. But this is true—Theodore Burton never thought of himself presidentially in a serious manner at all, and was on the point of saying something that would have taken him out of the running before he left on his journey. He had not friends talked with him very earnestly and got him to sail away without making any comment on the subject of the nomination. During his absence they were not idle, and Senator Burton returned to find a boom of decent size and in a fairly healthy condition.

There is quite an extensive list of Republican candidates, "reluctant" and otherwise. But when an expert figurer takes it in hand and applies the acid of elimination to it, it becomes a very small list after all. The list of candidates is as follows: Not one of them has struck a result which eliminates Burton the decisive ballot will be taken at the convention next. Not one. That proves a unanimity of sentiment among the wisest ones that whatever may happen to Senator Burton's candidacy in convention will happen to it at the end. He will be in at the finish. Therefore, the Burton presidential candidacy is figured here and now as one, at least that has to be reckoned with till the last day is taken.

Here is about the way it is figured as to him. The Willis and Herrick boomlets will fade away when the party gets down to regular business and Ohio will present a united front for Burton. That leaves this candidate in an advantageous geographical position which is unassailable. His public principles are assets that will be fuel to the fire of his growing strength. Burton is now, as they figure it, in a position to enter the convention with little fear of falling a victim to "the process of elimination."

A NEW DISCOVERY.
Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation, are sadly out of gear and need reconstruction.

Cut out the foolish foods and funny sawdust diets. Limit the flesh cream rub-ons. Cut out everything but the meals you are eating now and eat with every one of those single Sargol tablets. In two weeks note the difference. Five to eight good solid pounds of healthy, "stay there" fat should be the net result. Sargol charges your weak, stagnant blood with millions of fresh new red blood corpuscles—gives the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too, mixes with your blood in easily assimilated form. Thin people gain all the way from 10 to 25 pounds a month while taking Sargol and new flesh stays put. Sargol tablets are a scientific combination of six of the best flesh-producing elements known to chemistry. They come 40 tablets to a package, are pleasant harmless and inexpensive. All druggists in Clarksburg and vicinity sell them subject to an absolute guarantee of weight increase or money back.—Advertisement.

tion," but is in a good way to go to the scratch with whatever other candidate who has proved himself strong enough not to succumb to the weeding out process.

It is an interesting game for anyone who knows anything about politics to take the list and figure on it himself and see how near he can figure the stayers. Here is the list, and from this list it is about as certain as anything that the next Republican candidate will be selected: Root, Whitman, Roosevelt, Hughes, of New York; Taft of Connecticut; Knox of Pennsylvania; Burton, Herrick and Willis, of Ohio; Weels, of Massachusetts; Cummins, of Iowa; Sherman of Illinois; Fairbanks, of Indiana; and La Follette, of Wisconsin. At a glance the average politician can eliminate this list to a half—and time will prove him right. Who will stick? That is the question the politicians are working on. They figure that the Burton candidacy will not get down to regular business and Ohio will present a united front for Burton. That leaves this candidate in an advantageous geographical position which is unassailable. His public principles are assets that will be fuel to the fire of his growing strength. Burton is now, as they figure it, in a position to enter the convention with little fear of falling a victim to "the process of elimination."

effort on a large scale made for any of the prospective candidates. No candidate has anything here that could be classed as headquarters. There is a lone scribe with a type-writer who has been sending stories out for a few weeks, and some letters have been sent into Ohio as "feelers" by the friends of Burton. The most energetic efforts have been made in working up a Fairbanks boom, but from all reports the workers have not met with flattering success. All in all, however, practically nothing has been done of much consequence by any of the candidates and their friends save and except what is here noted and in addition, the trip that Senator Weeks took across country to the Frisco exposition, making a number of speeches en route. It amounted to little more than a drop in the bucket.

Therefore, the keen interest in the Burton banquet at Cleveland tonight, to see what effect it will have. As Burton is looked upon as one among the few "stayers" in the convention there is a widespread curiosity to know what is going to follow in the wake of this particular launching.

CHAUTAUQUA

Program This Afternoon and Tonight One of the Best Yet Executed Here.

Rain does not interfere with the Chautauqua sessions here as the management equipped the organization with a large tent to keep off the hot rays of the sun and torrents of rain as well.

The attendance throughout the week has been large and the interest all that could be desired. The closing sessions today and tomorrow promise to be even more largely attended.

An interesting junior Chautauqua was held this morning. The program for the afternoon and evening follows:

Afternoon—Lyric Glee Club.
Lecture—Miss Belle Kearney.

Night—
Concert and entertainment—Lyric Glee Club.

Lecture—The Storm Heroes of Our Coast—Illustrated—Arthur R. Peck.

PETITION PLEDGES TO BE CIRCULATED

By Prohibition State Committee in Effort to Keep on Ballots.

For the purpose of devising ways and means to keep the Prohibition party of West Virginia from being dropped from the election ballots through the operation of the new state primary election law, a special meeting of the party's state executive committee was held Thursday at the Parsons hotel in this city.

"The Prohibition party," declared the Rev. J. W. Bedford, of Parsons, the state chairman, "is determined not only to survive but to press its work harder than ever."

Must Ignore Primaries.

The committee decided to circulate among members of the party pledges not to take part in primaries of other parties and to sign petitions for nominees so as to get their names on the ballots. The new primary law denies places to the election ballots to candidates of a party that had not at the last election polled at least five per cent of the total vote, except the candidates for presidential electors and for judgeships. In most cases this knocks the party off the ballot unless the petition method is used.

Efforts in the next campaign, by order of the committee, will be concentrated upon candidates for Congress and the state legislature, although it is purposed to have county and state tickets in the field, provided this can be done by the petition method.

The committee arranged to have the Rev. G. W. Ogden, of Beckley, do field work continuously for the party from the present time until the end of the next campaign. He will go to Wetzel county at once and work in behalf of the party there.

State Conference.

Arrangements were made to hold a general state conference of party members and workers early in November in Clarksburg in connection with a regular meeting of the state committee. The date of this gathering will be announced later by the state chairman.

In addition to the Rev. Mr. Bedford the following members of the executive committee came here for the meeting: J. E. Cunningham, secretary and treasurer, of Parsons; U. A. Clayton, of Fairmont; J. O. Stout, of Clarksburg; G. W. Baughman, or Philippi; Dr. G. P. Sigler, of Pennsylvania; G. W. Ogden, of Beckley; H. C. Hedges, of Lumberport; and A. W. Martin, of Haywood. Other members of the committee were represented by proxies.

SOCIAL AND PERSONAL

Needlecraft Club Meets.

The Wallace Needlecraft Club was delightfully entertained Wednesday afternoon by Mrs. L. J. Musgrave in her home at Wallace. The diversions of the afternoon were various kinds of needlework and music. A dainty luncheon was served by the hostess, after which there was a vocal solo by Miss Missouri Moore. Members present were Mesdames W. C. Dunham, E. M. Miller, L. J. Musgrave, I. C. Gibson, F. P. Graham, W. H. Miller, F. H. Bell, G. T. Williamson, H. L. Rush, C. T. Myers, S. C. McCune and G. B. Lenehan, and as guests Mesdames Missouri Moore and Leola Musgrave attended.

To Hold Sale.

The Standard Bearer Missionary Society of the Methodist Episcopal church will hold a cake and candy sale Saturday at the James and Law Company's store, beginning at 9 a. m.

Regular Meeting.

The regular meeting of Queen

Chapter No. 13, Order of the Eastern Star, will be held at 8 o'clock tonight in the Masonic temple. All members are urged to attend.

B. A. Koblegard, of Weston, is a city business visitor.

OUTING

And Picnic Will be Held by Local Knights of the Grip Saturday Afternoon.

Clarksburg Council, No. 28, United Commercial Travelers, is preparing to have a big outing and picnic at Norwood Park Saturday afternoon and evening, July 17. The attendance is expected to be large and the program will be most enjoyable as shown as follows:

2:00—Potato race for girls, 8 to 12 years, prize two and one-half pound box Hershey's milk chocolate.
2:15—Fifty yard dash for boys, 8 to 12 years, prize, one pearl handle pocket knife, donated by Williams Hardware Company.
2:30—Sack race, for boys, 12 to 18 years, prize, one pair Waldo shoes, donated by Leatherbury Shoe Company.
2:45—Egg race for ladies not over 60 years, prize one-fourth dozen silk hose, donated by Koblegard Dry Goods Company.
3:15—Baseball game, Captain Thorne's team vs. Captain Cullen's team, prize, box fine cigars donated by 254 club.
5:00—"Eats." Everybody take a basket.

During the afternoon a group picture will be taken by W. A. Amos and published in the Sample Case.

FIRST CASES

Under the New States Law against Fraudulent Advertising at Bluefield.

The grand jury sitting at Princeton has returned indictments against the United States Woolen Mills Company, and the manager of the store of this concern at Bluefield, on a charge of fraudulent advertising. The case is of unusual interest, because these are the first indictments to be returned in the state under the fraudulent advertising statute passed by the last legislature.

The specific act charged was that the concern advertised that it would give away a "Palm Beach" suit with every suit for \$15. William S. Nutter, general superintendent of the Goodall Worsted Company, of Sanford, Me., the originators and manufacturers of "Palm Beach" cloth testified before the grand jury in connection with the charge.

It is but fair to state in order to clear up any confusion that may exist through the similarity of names, that the United States Woolen Mills Company is an entirely separate and distinct concern from the United Woolen Mills Company, of Parkersburg, which also has a store in Bluefield.

Diarrhoea Quickly Cured.

"About two years ago I had a severe attack of diarrhoea which lasted for over a week," writes W. C. Jones, Buford, N. D. "I became so weak that I could not stand upright. A Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Obtainable everywhere. Advertisement.
